

AMOS Press Release

A story of success continued in 2011 January 2012

11 new customers from Europe, Asia and the Americas

Again, Swiss-AS was able to continue its success story and records 11 new customers and an excellent financial result. In addition to the three national carriers Finnair, South African Airways and Brussels Airlines - Heli-One, Helvetic Airways, SkyWork Airlines, ABS Jets, PGA Portugalia, Eznis Airways and Southern Air (1st US customer) also joined the AMOS community. The contract signature of South African Airways marked a special milestone in the history of Swiss-AS: The 100th AMOS customer.

Investing in customer care and quality management has turned out to be an important factor of our story of success. Our customers are safe in the knowledge that they can take full advantage of a product that is constantly being developed to the highest standard.

Today more than 40 developers contribute to the continuous growth of AMOS and its technological innovation. Swiss-AS follows strict programming standards and has expanded its quality department where all new programs and features added are carefully revised by the Swiss-AS' Product Review Board.

The AMOS Customer Conference took place in autumn 2011, with great success. The event offered the AMOS customers a platform to share information, learn from the experiences of their peers and receive information about Swiss-AS' long-term strategy including an update of the functional and technological roadmap.

Outlook 2012: AMOS 10.00, new functions and re-branding

Since January 2012, Swiss-AS presents itself with a new logo and corporate identity. Following the re-branding process of its parent company Swiss International Air Lines,

Swiss-AS has taken the opportunity to re-fresh its brand profile and to focus on the Swiss characteristics, such as quality, reliability and commitment to the customer.

In 2012, Swiss-AS will release AMOS 10.00 which will include the "Advanced Planning" functions, a strategic further development which was highly prioritised by the AMOS Strategic Board.

In addition, AMOS will be equipped with several new MRO functions such as "Advanced Finance", "Approval Control" and "Generic Release to Service". By adding a number of new functions and extending existing ones in AMOS, the last remaining functional gap of AMOS will be closed and AMOS will respond to the needs of MRO providers in the same way that it responds to those of airlines.

About Swiss AviationSoftware and AMOS

AMOS - developed and distributed by Swiss AviationSoftware - is a comprehensive, fully-integrated software package that successfully manages the maintenance, engineering and logistics requirements of modern airlines and MRO providers by fulfilling all airworthiness standards.

Swiss-AS is a 100% subsidiary of Swiss International Air Lines Ltd., and counts more than 100 customers worldwide to its loyal customer base, including pure operators of all sizes, major low-cost, regional and flag carriers, large airline groups and MRO providers.

The fact that none of them has ever replaced AMOS by another system speaks for itself. Swiss-AS' AMOS is the industry-leading MRO software in Europe and one of the best-selling solutions world-wide. Swiss-AS has its headquarters in Basel, Switzerland, and is also represented in Miami, FL, USA.
