

# AMOS Press Release

## Lufthansa Flight Training to use AMOS for its entire simulator fleet

July 2012

### AMOS used for flight simulator maintenance

Lufthansa Flight Training (LFT) recently signed with Swiss-AS agreements to maintain their 37 simulators in AMOS. Since 2008, LFT's pilot school in Bremen has been relying on AMOS for their training aircraft. Their positive experience has convinced the management to use AMOS and the additional simulator module AMOS\_SIM for LFT's flight simulator fleet.

"With LFT, AMOS is now deployed in two companies for the simulator maintenance. The flight training business is an interesting market for Swiss-AS and we are pleased to be in the position to offer our customers, in addition to the AMOS core application, the dedicated AMOS\_SIM module which meets the requirements of today's aviation training providers", says Ronald Schaeuffele, CEO of Swiss-AS.

### Productivity growth coupled with financial savings

A rise of productivity is expected through the shut-down of LFT's 20 legacy software systems and the establishment of AMOS as leading application. By using AMOS for the maintenance of the 37 flight simulators as well as the training aircraft of the flight school, Lufthansa Flight Training is counting on remarkable savings over the next few years.

### About Lufthansa Flight Training (LFT)

Lufthansa Flight Training is a wholly-owned subsidiary of the Lufthansa Group and was founded in 1997. Having its headquarters in Frankfurt, LFT offers training and instruction of cockpit and cabin crews to its customer base of more than 200 airlines worldwide. The company also includes two pilot schools in Germany. The LFT Group has a fleet of almost 50 aircraft for training purposes and one of the largest fleets of full-flight simulators in Europe.

### About Swiss AviationSoftware and AMOS

AMOS - developed and distributed by Swiss AviationSoftware - is a comprehensive, fully-integrated software package that successfully manages the maintenance, engineering and logistics requirements of modern airlines and MRO providers by fulfilling all airworthiness standards. Swiss-AS is a 100% subsidiary of Swiss International Air Lines Ltd., and counts more than 100 customers worldwide to its loyal customer base, including pure operators of all sizes, major low-cost, regional and flag carriers, large airline groups and MRO providers.

The fact that none of them has ever replaced AMOS by another system speaks for itself. Swiss-AS' AMOS is the industry-leading MRO software in Europe and one of the best-selling solutions world-wide. Swiss-AS has its headquarters in Basel, Switzerland, and is also represented in Miami, FL, USA. **SWISS-AS.COM**
