- Project kick-off already in April 2015
- Usage of optional module "Financial Multi Entity"

Footprint further increased in the Americas

Swiss-AS is pleased to announce that the Aeromexico Group has selected AMOS for managing its full spectrum of maintenance activities as the outcome of an extensive market review. Since the opening of the AMOS office in Florida over four years ago, AMOS' footprint has significantly expanded in the Americas region and Swiss-AS is happy to welcome another prime customer from the region into the AMOS community.

Benefit from using "Financial Multi Entity"

"We would like to thank Aeromexico for the trust placed in Swiss-AS and our software AMOS. Our proven "Financial Multi Entity" functionality will surely support the airlines efforts for further group-internal synergies," states Ronald Schaeuffele, CEO of Swiss-AS.

The "Financial Multi Entity" module allows the two financially independent airlines to work in the same AMOS environment, taking advantage of centralized processes while maintaining separate general ledgers.

The project was already kicking off last month in the headquarters in Mexico City. The training will focus on a train-the-trainer approach along with e-learning for the 1,500 designated AMOS users within the company.
