

Swiss-AS Press Release

IBERIA takes off with AMOS

July 2016

At a glance

- Spanish carrier to implement AMOS for CAMO activities
- Another IAG Group Airline signs for AMOS
- Phased implementation approach

AMOS for CAMO activities

Swiss-AS is proud to announce that AMOS has been chosen by Spanish carrier Iberia Líneas Aéreas de España S.A. (IBERIA) as the ideal platform to assure continuous airworthiness from an operator perspective. IBERIA is the third member of the IAG Group to join the AMOS Community after Aer Lingus and Vueling. IBERIA has licensed the AMOS CAMO Edition and required a customer oriented implementation process to perform CAMO and Part M activities in AMOS. The AMOS CAMO Edition consists of all high-end AMOS core modules. Swiss-AS offered IBERIA a specially tailored training and implementation plan including project management, consulting, training, data transfer support etc.

AMOS selected to optimise processes and improve third party interactions

IBERIA will follow a phased implementation project approach using AMOS initially for the A330 fleet with the Go-Live currently scheduled in July 2016. The phase-in of the other aircraft-types in AMOS will follow thereafter. The go-live of AMOS will cement new working methods for the Spanish carrier leading to improved transparency and efficiency, optimised business processes and AMOS will also facilitate the interaction between the IBERIA CAMO organisation and the carriers' MRO provider IBERIA Maintenance.

About IBERIA

IBERIA is the leading carrier on routes between Europe and Latin America and it flies to more than 125 destinations in 48 countries. Together with its subsidiary Iberia Express and its franchise partner Iberia Regional/Air Nostrum, it operates about 600 flights each day with a fleet of 136 aircraft. It offers easy and convenient connections at its hub in T4 in Madrid-Barajas airport. Iberia was Europe's most punctual airline and second in the world in 2015, according to Flightstats. The airline is a member of the **oneworld** alliance that operates more than 14,000 daily flights to some 1,000 destinations in more than 150 countries.
